

## Meeting: 4/3

- Really like the cast layout
- Maybe not the pink background
  - Mockup b does a good job of using the colors but not a crazy neon background
  - Play around with background colors
- Maybe cutting out characters and having them peek out from the screen
- The layout on mockup a of development page is nice, maybe just a different background color

## Initial Meeting: 3/27

### [Recording link](#)

- 3 pages
  - Main introduction page
  - Development page
  - Then legacy page
- <https://fortheloveofbread.com/>
  - Similar layout to the about page
  - Feels more dynamic than a regular article because the titles, text and images are placed in different spots throughout the page
- <http://squad.agency/>
  - Another site for inspiration
- Embedded some gifs/videos throughout
